

# 46P COMPRESSOR

TWO-STAGE PISTON SERIES 46 CFM

## Compressor Specifications

<b>Output Capacity:</b>	46 cfm @ 175 psi
<b>Hydraulic Req:</b>	17-19 gpm @ 2500 psi
<b>Displacement:</b>	66 CID, 4-cylinder, two-stage
<b>Electrical Control:</b>	12 VDC @ 20 amps
<b>Weight:</b>	425 lbs. without reservoir 575 lbs. with oil reservoir

**The 46P is the work horse of the service truck industry.** The compressor package is built to handle a 100% duty cycle, while providing a quick 46 CFM @ 175 PSI. Designed around an industrial duty two-stage air compressor that is direct driven, it will provide steady and reliable operation in the most extreme environments.

*A 20-gallon air tank and/or 15-gallon hydraulic reservoir are available upon request.*

# 46P TWO-STAGE PISTON SERIES 46 CFM

## Durability Standard

- Domed head design for high efficiency.
- Cast iron crankcase
- Reliable, high flow disc valves for trouble-free performance and long life.
- Heavy-duty fully balanced pistons, crankshaft, and fan bladed flywheel for smooth, cool operation.
- Heavy-duty crankshaft main roller bearings for long life.
- Intercoolers for cooling between stages for increased efficiency and life.
- High-capacity hydraulic oil cooler and fan for cooler operation.
- Direct hydraulic driven (no belts)
- Two-stage, Four-cylinder
- Powder coated white steel cover

## Ease of Use

- Canister Air Filters for easy replacement
- Oil level sight glass for easy visual check
- Bulkhead fittings for quick hook-up
- Simple and inexpensive to maintain

*Directly driven off of hydraulic motor means no broken belts, ever. The Compressor includes a high capacity hydraulic cooler and fan for cooler operation. One piece cylinder and head design mean that there are no head gaskets to fail.*
